RR Bradford, Mass.

Dear Mr. Morss,

Thank you for your letter, and I am pleased to verify CKDY at 1420 was what you received at 7:03 Feb. 9, 1976. We are obstructed in our signal to the south because of a number of other stations at the same frequency. Conditions must have been very favourable for us because some of the others on 1420 are relatively near you. CKDY is part of a chain of stations operated by Evangeline Broadcasting Company which started in the 1940's with CFAB in Windsor. That same Mr. Willard Bishop is now president of the company. His father, Mr. Avard Bishop actually built CFAB. CKDY does up to eight hours daily from local studios, the remainder of the 18-hour day is gleaned from our other sister stations and the national CBC network with which we are affiliated. We also operate CKWM-FM at 97.7. Again, thanks for your letter.

Yours truly,

Leigh H. Everett
